## SECTION 4: First aid measures

### 4.1 Description of first aid measures

General notes	Get medical advice/ attention if you feel unwell.
Following inhalation	Not normally required. Move into fresh air and call a poison center or doctor if you feel unwell.
Following skin contact	Wash with water. If skin irritation or rash occurs: Get medical advice/attention. Call a poison center or doctor if irritation develops or persists.
Following eye contact	Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Call a poison center or doctor if you feel unwell.
Following ingestion	Call a poison center or doctor if you feel unwell. If vomiting occurs naturally, have victim lean forward to reduce the risk of aspiration. Do NOT induce vomiting unless directed to do so by medical personnel. Never give anything by mouth to an unconscious person.

### 4.2 Most important symptoms and effects, both acute and delayed

The most important known symptoms and effects are described in the labelling (see section 2) and/or in section 11

### 4.3 Indication of any immediate medical attention and special treatment needed

Treat symptomatically.
